# wedding cake

Whisk is proud to offer our clients custom cakes made with real ingredients. That's right, no jellies, or cake mixes, or anything artificial here! We are committed to create a cake to suit our clients' visions and strive to meet their expectations.

Buttercream is our jam and the use of fondant is reserved for decoration on cakes only. This means your Whisk Bakery cake will be covered in buttercream goodness for your enjoyment. Tastings may be scheduled during the week as we block off the weekend for deliveries and set up. To make an appointment please contact us via e-mail or phone. We are a small bakery, this means that in order to provide high quality wedding cakes, we must limit the quantity of cakes we can produce per week. In other words, contact us soon!

## NAKED CAKES

These cakes are not shy! Naked cakes are not covered in frosting and are exposed so guests can see their color and flavor. We suggest adorning these cakes with fresh fruit and powdered sugar.

**Starting at \$7.00 per slice**

## SEMI-NAKED CAKES

These cakes are semi-frosted, so the flavors and colors are still visible in some parts of the cake, but not completely exposed like naked cakes are. These cakes are the sweet spot (pun intended) for couples who do not like a lot of frosting, but still want the look of a white cake.

**Starting at \$7.00 per slice**

## BUTTERCREAM CAKES

These are the traditional, fully frosted cakes. They are covered in our dreamy, light and fluffy buttercream. These cakes might be more traditional, but very tempting!

**Starting at \$8.00 per slice**

# cakes

Our cakes are baked in our kitchen, from scratch, using the best and freshest ingredients. Generally speaking, our creations are made up of three cake layers with two layers of filling, but can create something custom to fit your celebration.
